

London Borough of Redbridge Pension Fund

Statement on Israel and the Occupied Palestinian Territories

The Redbridge Pension Fund does not hold any direct investments with companies as the Fund invests in pooled units. The Fund does not operate an exclusion policy however we expect our Investment Fund Managers to fully assess companies in whom they invest in their pooled units, and to engage with these companies to ensure that good governance is in place.

The Redbridge Pension Fund's assets are predominately invested through the London CIV (LCIV) and the LCIV have acknowledged the responsibility as institutional investors, to respect human rights as formalised by the UN and the Office of Enforcement & Compliance Assurance. In fact, the LCIV selected this topic as one of their priority engagement themes in 2021.

LCIV are committed to engaging with investee companies that have been flagged by the United Nations Human Rights Office and assess the outcome of each engagement on a case-by-case basis.

The above statement will be kept under review.
