

Liability Insurance

Public Liability insurance is designed to provide cover to the Policyholder (company, business or individual) in the event that they become legally liable to pay compensation to a third party.

Only Redbridge Council and its employees can be covered through our insurance policies. Any contractors, companies, businesses or individuals that the council deals with need to obtain their own policy of insurance in their own name to cover their own liability.

If a letter of claim is made by a solicitor it is required to go straight to our Public and Employers' Liability Insurers as detailed in the information below.
