If you wish to support the legal compliance or soundness of the Plan or its compliance with the duty to co-operate, please also use this box to set out your comments.

We consider the plan to be sound and understand there is a surplus of capacity needed for the management of current and future waste arisings in East London.

As mentioned in our response at the Regulation 18 stage, a significant amount of refuse derived fuel (RDF) waste has been exported to Wakefield from East London for final disposal at Ferrybridge 1 and 2. We note the Submission Plan states there may be scope for the development of additional capacity including the intensification of existing sites, to provide for management further up the waste hierarchy such as residual derived fuel waste. This suggests RDF waste could be managed more locally in future within East London.

4. Please set out the modification(s) you consider necessary to make the East London Joint Waste Plan legally compliant and sound, in respect of any legal compliance or soundness matters you have identified at 5 above. (Please note that non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why each modification will make the Waste Plan legally compliant or sound. It will be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.
