November 2019

Welcome to our November newsletter aimed at informing you about progress on the construction of ten new homes for affordable rent at Kielder Close. This is part of the Council’s programme to provide much needed affordable housing for Redbridge residents.

Why we are building

The council has made providing more genuinely affordable homes for Redbridge residents a top priority. One way we can tackle this is by using land we own on our existing estates to build new, high quality, energy efficient council homes.

Works update

Over the past few months Aspen Build, our contractor responsible for building the block at Kielder Close, have been busy making good progress. As you may have noticed the block is really starting to take shape with works to the roof covering, installation of patio doors and windows now complete. Currently Aspen Build are working on the external façade brickwork. You will also have noticed our colourful hoarding which sets out our commitment to deliver genuinely affordable new homes for Redbridge families. The work is due to complete on 19th March next year. Thank you for your continued cooperation and understanding.
