Our Services to Children and Young People

You & Co will work with you from the moment you experience a crime until when you and your worker feel that you no longer need our support.

We concentrate our work on helping you to:
- feel safer and be safer
- reduce the risks of you becoming a victim again by helping you and adults around you to make your surroundings safer
- make safer choices
- help you move on from your experiences in a positive way.

There are lots of opportunities for you to help us make our services better and influence the government and other agencies in the criminal justice system. This means getting involved in some of our groups and activities.

As well as working with you, if you agree, we will also work with other people who work with you to make sure that we join up and give you the best support possible.

The Children and Young People’s (CYP) Service

Support for young victims of crime in London

Information for Children and Young People

You & Co is Victim Support’s youth programme that helps young people cope with the impact and effects of crime.

www.victimsupport.org.uk

Registered charity number 298028
Registered address: Victim Support, Hallam House, 56–60 Hallam Street, London W1W 6JL
What is the CYP Service?
We work with any child or young person (under 18) who has been affected by crime. The crime does not have to have been reported to the police, although they may contact us, with your approval, if it has been reported.

We are part of Victim Support (VS), the national charity for victims and witnesses of crime.

We are an independent charity and will only work with you where we have your consent. If you are aged 13 and above, you may be able to consent to your own support without us speaking to your parent or carer, but, we will need to get their consent if you are under 13.

We work with thousands of young people each year and understand the impact crime can have on children and young people.

What does CYP support look like?
Our trained and friendly caseworkers will work with you on a one-to-one basis, providing support in a confidential space, at a place and time that suits you best.

What our support work with you could include

Meeting you (and your parent) in your community, school or home to talk about what happened and answer any concerns you have after the crime.

Support over the phone

Agreeing a safety plan
This could include:
• a personal alarm;
• supporting you through the whole criminal justice process; and
• working together with other professionals, or referring you to others who can help.

How can you get the support?

Call us on 0808 168 9291 (free) or you can ask your parent or carer to call us if you prefer.

If you want to talk to us completely anonymously, you can call our Supportline on 08 08 16 89 111 (free).
