Wessex Close Newsletter

February 2020

Welcome to our February newsletter aimed at informing you about progress on the construction of six new houses for affordable rent at Wessex Close. This is part of the Council’s programme to provide much needed affordable housing for Redbridge residents.

Why we are building

The council has made providing more genuinely affordable homes for Redbridge residents a top priority. One way we can tackle this is by using land we own on our existing estates to build new, high quality, energy efficient council homes.

Works update

For the past few months Aspen Build Limited, our contractor appointed to build the new homes at Wessex Close, have been busy making good progress. The roof structures and tiling works have been completed. Currently Aspen are working on all internal aspects of the works in readiness for the homes to be handed over to the council in April 2020. Six Redbridge families will be moving into these homes. We would like to thank you for your continued cooperation and understanding throughout the works.
